

SUMMIT[®]

TK Custom Cooktop Trim Kit

Summit can have a stainless steel collar manufactured to your exact specifications, allowing you to install virtually any cooktop inside a larger counter cutout. All trim kits are made from 304 grade stainless steel. To get started, follow the steps below:

Cutout Dimensions:

These measurements are the manufacturer-provided cutout dimensions of your new cooktop, typically found in the user manual.

A. Cutout Width:

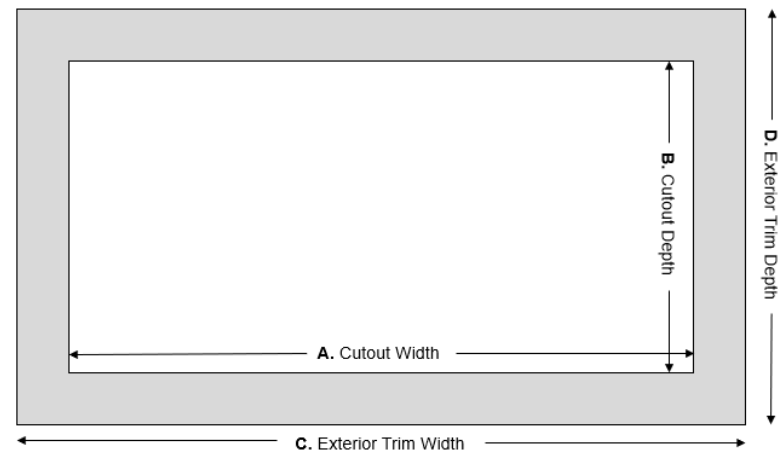

B. Cutout Depth:

Specify the exterior dimensions you want for your custom trim kit.

This is the measurement of the hole in countertop where you want to install your cooktop. To account for the overhang of the trim kit, add at least 2" (1" on each side) to measurements C and D.

C. Exterior Width:

D. Exterior Depth:
