More Choices
to Create the Perfect Home or Commercial Bar

From cold brew coffee to ice cold lagers, Summit's extensive selection includes a variety of specialized refrigeration designed to store every beverage at its best

Craft Beer Pub Cellars
Residential & commercial choices designed to store craft beer at warmer temperature than standard refrigerators

ColdCavern® Beer Frosters
Store lighter beer at an arctic 24°F inside our beer fosters, bringing cans and aluminum bottles to the coldest temperature possible before freezing

Beer Dispensers
Single, double, & triple tap choices for residential or commercial use indoors or out, including ADA compliant choices for installation under lower counters

Cold Brew Kegerators
15" & 24" wide options equipped with specialty commercial tapping equipment to serve cold brew or nitro-infused coffee on tap

Vodka Freezers
Keep vodka and other spirits properly chilled and elegantly displayed in our compact commercial vodka freezer complete with a ceiling rack to store martini glasses

Produce Refrigerators
Ensure your grapes, cheese, and other charcuterie favorites are perfectly chilled and properly humidified with our undercounter pantry series

Tinted Door Options
to Protect Your Collection

Available in five styles, our optional door tints provide an added layer of protection, blocking UV rays to ensure your wine is throughly shielded from damaging light

MIRROR (OPTION T1)

T1

Nearly opaque tint offers maximum energy savings and a unique mirrored look

SOLAR ENERGY REJECTION 85%
GLARE REDUCTION 87%
UV REJECTION 99%
VISIBILITY 12%

DARK SMOKE (OPTION T1S/T1SF)

T1S

Reflective film with a near opaque look offers high energy savings

SOLAR ENERGY REJECTION 74%
GLARE REDUCTION 83%
UV REJECTION 99%
VISIBILITY 15%

MIDNIGHT BLUE (OPTION T2/T2F)

T2

Deep blue finish for high energy savings and moderate interior visibility

SOLAR ENERGY REJECTION 69%
GLARE REDUCTION 69%
UV REJECTION 99%
VISIBILITY 28%

LIGHT BLUE (OPTION T3/T3F)

T3

Similar look in a lighter hue with more interior visibility

SOLAR ENERGY REJECTION 54%
GLARE REDUCTION 47%
UV REJECTION 99%
VISIBILITY 48%

LIGHT SMOKE (OPTION T4/T4F)

T4

Subtle, nearly transparent tint for moderate protection and full interior visibility

SOLAR ENERGY REJECTION 29%
GLARE REDUCTION 26%
UV REJECTION 99%
VISIBILITY 67%
